### **The Mayor's Christmas Card Competition 2025**

Dear Parents,

With the help of the borough's primary schools, I am running a competition to design my official 2025 Christmas Card.

The competition is open to all children of primary school age living and/or attending school in the borough. Entry is entirely optional - this is not homework - but we thought that this might be a nice activity for children to undertake during the half term break, which allows time for the final card to be prepared.

In addition to their design being used for my official Christmas card, the winner will receive a prize and an invitation for the child, their parents and any siblings to join me for tea in The Mayor's Parlour at the Guildhall. There will also be certificates for the runners up.

An entry form is attached with this letter and can be submitted online directly to [mayors.office@kingston.gov.uk](mailto:mayors.office@kingston.gov.uk) or, alternatively, by printing the form and returning the completed picture via your school office **no later than than Friday 7th November**. If you do not have access to a printer at home, a copy of the entry form can be collected from your local library.

Please ensure that :

Your child's design does not extend outside the marked frame.

The design is 2D (flat), as it will need to be scanned.

No glitter or other loose materials are used.

We very much look forward to receiving the children's entries. The winner and runners up will be contacted directly and their names published on the council website in December.

Thank you all for your support.

Councillor Noel Hadjimichael  
Mayor of the Royal Borough of Kingston upon Thames

## Pharmacy First – an NHS service being offered from pharmacies across England for children and adults for children (as well as adults).

What is Pharmacy First?

This service enables children and adults to get quick access to healthcare advice as they can walk in to a pharmacy and access the service (some pharmacies also offer the service remotely as a video consultation). The person will then be offered a consultation with a pharmacist in a private consultation room. This service takes away the potential delay of having to wait for a GP appointment and may help ensure children get well and back to school as quickly as possible, as well as supporting parents/carers to also get better sooner if they are unwell.

The service supports primary school aged children in the below age groups who need help with:

- Earache (aged 1 to 17 years)
- Impetigo (aged 1 year and over)
- Infected insect bites (aged 1 year and over)
- Sore throats (aged 5 years and over)

The service also supports older children and adults (so is applicable to you as parents/carers) in the below age groups who need help with:

- Earache (aged 1 to 17 years)
- Impetigo (aged 1 year and over)
- Infected insect bites (aged 1 year and over)
- Sore throats (aged 5 years and over)
- Shingles (aged 18 years and over)
- Sinusitis (aged 12 years and over)
- Urinary tract infections (UTIs) in women (aged 16 to 64 years)

The pharmacist will provide advice and, if clinically necessary, offer an NHS medicine to treat the condition (these medicines are supplied free of charge to children under 16 years, with the [normal NHS prescription charge rules](#) applying to people aged 16 or over). The pharmacy will then send an electronic message to the person's GP surgery so their health record can be updated.

Should the pharmacist be unable to help, they will direct the person to their GP surgery or other health professional as appropriate.

A summary of the service is available as an [animation](#) and more information can also be found at [nhs.uk/thinkpharmacyfirst](https://nhs.uk/thinkpharmacyfirst)
